You must inform the College within 7 days of your arrival in Australia of your current residential address and **must advise any changes of address within 7 days**. The College is required by law to keep your residential address so you can be contacted if you do not satisfy course requirements. TRAINING AND ASSESSMENT POLICIES AND PROCEDURES

What are Competencies

A competency is a statement about the skills, knowledge and attitudes a learner needs to complete and these statements are contained in each UNIT. Each UNIT is often made up of several ELEMENTS.

The assessment of your competency means that you must be able to “Show, Tell and Apply” evidence and skills, which match and meet these units and elements against a set of key performance competencies and nationally set standards. This could include:

- Collecting, analysing and organising information
- Communicating ideas and information
- Planning and organising activities and tasks
- Working with others in teams
- Leading teams
- Using mathematical ideas and technological tools
- Solving problems
- Demonstrating understanding

Competency Based-Training and Assessment

Competency Based Training is always concerned with what the student will be able to do at the end of training. There is not so much concern with what the inputs are or how the student got there. So as long as the student achieves the listed competencies, it does not matter who taught him or her, how or when the training takes place, what resources are used or of what the content material of the curriculum consists.

All assessments conducted by us will observe the following directives as required by the Competency Standards for Assessment from the National Training Package for Training.

- Competency Based Assessment - Assessment must take place within a competency based assessment system within established procedures as defined in the Guidelines for Conducting Assessment from the National Training Package for Training and Assessment;
- Validity - Assessment methods will be valid, that is, they will assess what they claim to assess;
- Reliability - Assessment procedures must be reliable, that is, they must result in consistent interpretation of evidence from the learner and from context to context;
- Fairness - Assessment procedures will be fair, so as not disadvantage any learners. Assessment procedures will:
 - be equitable, culturally and linguistically appropriate;
 - involve procedures in which criteria for judging performance are made clear to all students;
 - employ a participatory approach; and
 - provide for students to undertake assessments at appropriate times and where required in appropriate locations;
- Flexibility - Assessment procedures will be flexible, that is, they should involve a variety of methods that depend on the circumstances surrounding the assessment;
- Recognition of Prior Learning (RPL) - Individuals seeking RPL will be able to access the RPL process as described in Velocity Education & Training RPL Information Kit.
- Cost Effectiveness - Assessment conducted by or on behalf of us will be completed in a cost effective manner. All of Velocity Education & Training trainers/assessors are responsible for determining issues with respect to cost effectiveness such as the timing and frequency of assessment. Decisions made in this regard are to be made clear to all students before they commence their training programs; and
- Comparability - The review of assessment systems and procedures and the outcomes of assessment will be undertaken at regular periods in order to ensure that they are functioning appropriately. The review process is essential in maintaining comparability of assessment. The comparability of assessment will be addressed within the quality management system. We will utilise a network of consultants to assist in maintaining comparability of all assessments at the delivery level.

Velocity Education & Training utilises a range of assessment methods these include but are not limited to:

- Role playing and scenarios
- Case studies

- Written examinations
- Practical tasks and demonstrations
- Observation either on the job or in a simulated work environment
- Question and answer

Assessment Appeals

An appeals and reassessment process is an integral part of all training and assessment pathways leading to a nationally recognised qualification or Statement of Attainment under the Australian Qualification Framework and in accordance with the National VET Training Framework.

A fair and impartial appeals process is available to all students. If a student wishes to appeal his/her assessment result, he/she must first discuss the issue with the trainer/assessor.

If the student would like to proceed further with the request after discussions with the trainer/assessor a formal request is made in writing outlining the reason(s) for the appeal.

Grounds for Appeal

An application for appeal will be considered where:

- A student claims a disadvantage because the trainer/assessor did not provide a courses/competency units outline
- A student claims disadvantage because the trainer/assessor varied without consultation or in an unreasonable way the assessment requirements as specified in a courses/competency units outline
- A student claims disadvantage because assessment requirements specified by the trainer were unreasonably or prejudicially applied to him or her
- A student is of the view that a clerical error has occurred in the documenting of the assessment outcome
- A student claims that there is a discrepancy between the practical observation and the formal assessment.

If the appeal for re-assessment is proven, Velocity Education & Training will make all necessary arrangements to conduct the re-assessment of the student at a time that is mutually convenient for all parties concerned.

All appeals are recorded and reviewed at Management Review Meetings. Results of all appeals are communicated in writing stating the reasons for the decisions made to the student and a copy of this communication is also kept on file, both on the complaints register and in the student's individual file.

Recognition of Prior Learning – RPL and Recognition of Current Competencies - RCC

All Students, potential or actual, of Velocity Education & Training training programs are provided with full recognition of their current skills and knowledge. Velocity Education & Training promotes the acknowledgment of all 'non-traditional' forms of learning as valid pathways for recognition of competency achievement during the RPL assessment process.

The recognition of prior learning (RPL) process conducted is an assessment process, which provides acknowledgement of all skills and knowledge gained through life experiences, work experience, previous training and formal education.

The RPL process examines the evidence within the following key principles:

- adopting a focus on the competencies held rather than on how, when or where the learning occurred;
- demonstrated commitment to recognising the prior learning of adults;
- providing access to the RPL process for all potential Students of courses;
- undertaking RPL processes which are fair to all those involved; and
- providing adequate support for all potential RPL applicants

The RPL assessment process includes the initial provision of information, support and counselling, formal application, assessment, post-assessment guidance and certification for course Students.

All Students are offered RPL at time of the pre-enrolment interview and can elect to be considered for RPL by selecting the option available on the application form.

The special needs of RPL applicants are also recognised and all necessary and reasonable adjustments will be made (taking into account such areas as LL&N) during the RPL assessment process where appropriate.

A variety of RPL assessment options will be available for potential applicants to identify whether they have achieved the necessary competencies/learning outcomes to the required standard in the relevant national training program. All assessment mechanisms used are valid, reliable, flexible and fair and conducted in an ethical manner.

The key objectives of our RPL assessment process is to:

- minimise duplication of learning, training or skill acquisition;
- allow the completion of studies in the shortest possible time;
- provide clear RPL outcomes and access to further learning/training and career development;
- provide quality advice and support to potential and current applicants;
- conduct the RPL process only in respect to courses that we are registered to assess;
 - ensure that only fully qualified consultants are involved in the RPL process;

- document the RPL process
- recognise competencies and modules gained through an RPL process conducted at another registered training organisation via the requirements of mutual recognition;
- ensure that the RPL processes are monitored, evaluated and updated where appropriate;
- advise all RPL applicants of their right of appeal through the formal process; and
- ensure fees and charges are fair and competitive with the industry standard

The following sequential process has been established as the procedure to be followed by an applicant who wishes to obtain credit of prior learning or current competencies.

Step 1 – request

Students are advised during enrolment and induction that they may be eligible to apply for Recognition of Prior Learning (RPL) and/or Recognition of Current Competencies (RCC).

Step 2 – complete application and return it to the College

1. Applicants will utilise the information contained within this kit. Information to conduct a self-assessment against the selected training course learning outcomes.
2. Applicants will need to consider if and how they have achieved each learning outcome and if they can satisfy the performance criteria by submitting valid, sufficient, authentic and current evidence.
3. Applicants will need to gather all relevant supporting documentation and complete the application form with honest, clear, complete and concise information.
4. The completed application form with certified copies of supporting documentation will then be forwarded to the Academic Manager at Velocity Education & Training with the payment of administration fee.

Step 3 – Interview and assessment

On receipt of the application, the Academic Manager will determine the completeness and relevance of the documentation. The Academic Manager will compare the evidence provided by the applicant with the performance criteria. A judgment must be made about whether the applicant wholly or partially meets the requirements. The Academic Manager will check that the evidence submitted conforms to the principles of evidence:

- Validity (is the evidence relevant?)
- Sufficiency (is there enough evidence?)
- Authenticity (is the evidence a true reflection of the candidate?)
- Currency (is the evidence recent – obtained within 2 years?)

The Academic Manager will contact applicant to arrangement the time for interview conduction.

In the event of partial completion of the learning outcomes, the Academic Manager should outline which performance criteria still needs to be achieved, and preferably what evidence is still required

Options may include:

- Supply further supporting documentation
- Complete the assessment activity portfolio
- Complete individual modules of the appropriate training course

The Academic Manager will complete and report the decision for the applicants and the college will keep records of all applications on the student file.

Step 4 – notification

Velocity Education & Training will notify the applicant at the end of the interview session.

Step 5 – appeal

The applicant has the right to appeal the College's decision, if they believe the decision is unfair, unjust or if the Academic Manager has misinterpreted the evidence.

In the case of an appeal, the Academic Manager will review all material available and make a decision with one or two possible outcomes:

- Grant recognition
- Deny recognition

Once again, the Academic Manager will notify the applicant of the decision within two weeks of receiving the appeal.

The decision of the RPL review will be final. If you are unhappy with the decision, you may contact the PEO to arrange the meeting and present your case. The PEO will appoint the appeal panel to listen and review your case if valid.

All of the RPL application will be processing within 10 working days from the submission date.

- paraphrasing the work of another person;
- directly copying any part of another person's work;
